

Homebuilding & RENOVATING SHOW

Remodeller

If you're one of the 1,000s of people looking to improve their home by converting your basement or loft space, the show provides an essential mix of great ideas and expert advice.

1

Be sure to visit the **Self-Build Theatre** for our seminar on Extension design ideas: How to successfully add space and value to your home, each day at 11:30 with Michael Holmes.

2

Ensuring sufficient light into the loft space is critical, so make a beeline for one of our windows and doors exhibitors – Internorm Windows can really help provide a **specific solution** for your project.

3

Of course, the fundamental element of any successful conversion is good design – so visit one of the many architects and designers exhibiting at the show or come along to the **Ask the Architects** feature to book a **free** 15-minute appointment with a designer.

Use the checklist on the next page for exhibitor's stand numbers

New! Show Trails

5

Of course, the more practical issues of basement and loft conversion are fundamental to the success of your project and a good builder – capable of providing expert advice based on years of experience – is key. Check out our seminar on **How to find a reliable builder** and compare quotes on a like-for-like basis, or visit the Federation of Master Builders on stand 404.

Check out the show guide for a list of all exhibitors

My trail checklist
